THE SEED SITUATION TODAY

Short seed crops, along with big demand, have resulted in a "Sold out" condition on some items this season before planting really has got under way. We have done our best to keep stocks on hand but quantities actually delivered to us were below expectations and inadequate to meet the demand. . . . Red Clover, Alsike, Mammoth Clover, Hubam, White Clover, Alfalfa of some origins, are exhausted, subject to our being able to locate additional supplies.

Fortunately, Sweet Clover and Lespedeza are still ample and quality excellent. Recommend both for soil-building, pasture, hay. Farms need rebuilding after the heavy drain on fertility resulting from intensive production during the War.

Sweet Clover is an outstanding legume for soil-improvement; corn yields are greatly improved following Sweet Clover plowed under. Lespedeza is unequalled as summer pasture crop, compares favorably with Corn for fattening cattle; its hay ranks with Alfalfa or Clover hay in quality. Lespedeza-Timothy mixture may be used instead of Timothy-Clover mixture.

As to seeds generally, the unusual early demand has taxed our clearing capacity, though we are working day-and-night shifts, but we are gradually catching up so as to ship orders without undue delay.

ALFALFA U. S. Verified Origin	
Bags—No Charge	Per 100 lbs.
West-Texas, M Brand	\$39.75
“ “ Certified	42.75
New Mexico, M Brand	40.00

OUR NEW ST. LOUIS PLANT
Convenient location: just south of Municipal (Free) Bridge—near truck depots, railroads, wholesale district—out of congested area. Ample truck-loading space—off the street—with free parking lot. Two entrances—Fourth or Third St.—to platform which can serve 22 trucks at a time.
Railroad truckage alongside building. Bulk unloading provided for. Building contains 125,000 square feet. Newest types cleaning machinery, with arrangement for quick, efficient, economical handling and cleaning of seeds.
Large, modern, daylight seed-testing laboratory to control buying, cleaning and preparation of seeds to meet and surpass requirements of the Federal and various State seed laws.
St. Louis is close to the producing territory of a wide assortment of Grasses, Clovers, Beans, Peas and Forage seeds, enabling us to offer first-hand at low prices.
In addition, we operate our large cleaning and storage plant at Atchison, Kansas, for handling and cleaning seeds originating in that area and the West. Atchison is in the northeast corner of Kansas, just across the Missouri line, in the center of the Blue Grass producing districts of Missouri, Kansas, Iowa and Nebraska.
